Dear John Sept 22/'92.

Thank you very much for your excelent work and advice. I have got it a little late, because of our terrible „Zoll". It was a „Petit paquet" and our customs opened it officially. They afraid, it may be contained gift or a sample of merchandise.
It is possible to registrate that 13. Aug./92 was in Toronto and arrived 17. Aug/92 to Budapest. Unbelievable an other month had to be wanted to get it, but now I am happy to have it.
Many thanks for the medical papers too.

I have got the theis of L.H. Schools.
„... thanks because it was your suggestion.

I have got the thesis of L. H. Schools. many thanks, because it was your suggestion. It is a great work.

We spent a good time in Germany with Ildiko. The temperature was as badly high as in Hungary, but a little more rain, more humid.

In Hungary we are suffering for the lake of rain till now.

Yours truly:
